# NAIL CARE

## MAVALA SCIENTIFIQUE

Penetrating nail hardener which fights weak and splitting nails.

The tip of the nail is the most fragile part, which breaks easily, and is therefore the part of the nail to be strengthened. MAVALA SCIENTIFIQUE hardens the nail plate by bonding its three layers together.

Apply from centre to the free edge of nails. Avoid touching cuticles and skin. Leave on for one minute to penetrate. Then continue with manicure. Follow instructions carefully.

Ref. 90900.50 1x10ml

## MAVADERMA

Nutritive massage oil for nails.

It is principally blood that nourishes nail roots. MAVADERMA is a balanced blending of wheat germ, olive and sweet almond oils to massage onto the nail root area for more beautiful and longer nails.

Brush on to root area and massage with thumb in circular motion in direction of heart to accelerate penetration and efficiency of product. Remove all traces of oil before continuing manicure.

Ref. 90901.50 2 x 10 ml

## MAVA-STRONG

Fortifying and protective base coat for nails.

Nails are subjected to repeated dehydrating external factors, causing loss of shine, soft nails and premature flaking.

MAVA-STRONG is a colourless and shiny nail polish that allows nails to regain their normal and strong aspect, thanks to its micro encapsulated complex and to crystal resin tears.

To be used as a manicure base (followed by nail polish and top coat) or alone.

Ref. 90990.50 2 x 10 ml

## NAIL SHIELD PHASE 1 - Nylon Fibre Base

Physically strengthens weak and fragile nails.

Nylon fibres form a trellis on the entire surface of nails to strengthen it.

To be applied over the entire surface of nail. Allow to dry completely. The surface is then irregular and rough and needs to be covered with NAIL SHIELD Phase 2 – Sealer.

Ref. 90908.51 2 x 10 ml

## NAIL SHIELD PHASE 2 - Sealer

Fills in the irregularities of nail surface formed by Phase 1 and smoothes.

Can also be used as a base directly on slightly ridged nails.

Apply one coat and allow to dry. If the surface remains rough when first coat is dry, apply a second coat. Continue with manicure.

Ref. 90909.51 2 x 10 ml

## RIDGE FILLER

Smoothes ridged nail surface.

Fills ridges and irregularities and gives a smooth and satiny nail surface.

To be applied as a base, dries quickly. For an even longer lasting manicure, apply it after a base coat (MAVALA 002 or BARRIER-BASE COAT). Continue with manicure or apply a top coat.

Ref. 90909.50 2 x 10 ml

MAVALA  
SWITZERLAND

# CUTICLE CARE

Cuticle is the name given to the skin framing the nail plate. It protects the nail from external elements and infection. When the cuticles grow, they can become dry and sometimes hard and split, particularly if they are not looked after and when we cut them. It is necessary to take care of them every day using an emollient treatment and remove dead skin once a week, exactly as you would exfoliate your face.

## LIGHTENING SCRUB FOR NAILS

Weekly care that gives smoothness, brightness and tidiness to nails and cuticles. Soft and natural exfoliating formula, with a softening action. With lemon extract that helps illuminate nails.

After removing nail polish, shaping nails, applying Cuticle Cream or Oil and soaking fingers in the Manicure Bowl (with water and a Manicure Pill), gently massage a small quantity of product on wet nails and cuticles. Rinse thoroughly using Mavala Nail Brush. Follow with Cuticle Remover. Precaution: Do not use on irritated or damaged skin.

Ref. 90919.50 30 ml

## CUTICLE CREAM

Daily care to fight dry and hard cuticles. This rich cream will make cuticles supple and soft. For the professional manicurist, it will help improve performance of MANICURE PILL and CUTICLE REMOVER.

Same use and properties as CUTICLE OIL.

Ref. 90914.52 30 ml

## CUTICLE REMOVER

Softens and helps remove overgrown, unsightly cuticles to give a neat nail contour.

This thixotropic formula is brushed on cuticles. In one minute, cuticles are softened. Using a manicure stick wrapped with cotton wool, gently "roll" them back. Do not use metal instruments. Carefully rinse off before continuing manicure. Follow instructions carefully.

Ref. 90915.50 2 x 10 ml

## CUTICLE OIL

Daily care to fight dry and hard cuticles. This rich oil will make cuticles supple and soft. For the professional manicurist, it will help improve performance of MANICURE PILL and CUTICLE REMOVER.

Apply on nail contour and massage in a circular motion. Remove all traces of oil before continuing with manicure.

Ref. 90914.51 2 x 10 ml

# NAIL MAKE-UP

## MAVALA 002

Double action protective base coat.

MAVALA 002 protects nails from coloured pigments contained in nail polish to avoid them yellowing. It extends life of your manicure due to its "sticky" formula.

Apply MAVALA 002 over the entire clean nail surface. Must be followed with a nail polish or a fixator, as this product, even dry, will remain slightly sticky.

**Ref. 90902.50 2 x 10 ml**

## BARRIER-BASE COAT

Manicure base for delicate, fragile, dry nails.

This caring base coat forms a protective screen between the nail plate and nail polish. Its aqueous formula provides to the nail plate moisturizing and restructuring active ingredients from the Proflex complex: calcium, silk amino acids and an essential component of keratin.

Apply a thin coat over the entire clean nail surface. Allow to dry well and necessarily continue with manicure or simply apply a top coat.

**Ref. 90904.50 2 x 10 ml**

## MAVA-WHITE

Optical nail whitener.

This optical colour perfector contains a specific optical azurant that reacts to UV light. When used under nail polish, the shade does not change because of the colour of the nail. Thanks to its matt finish when used on its own, it is also perfect for men whose nails have been stained or yellowed, due to nicotine and who are concerned about the appearance of their nails.

To be applied as a base coat.

**Ref. 90705.50 2 x 10 ml**

## THE BASICS

Alternative to specific bases and top coats, and to nail polishes, here are the Basics of MAVALA.

**Ref. 90927.40 Super Base 2 x 10 ml**

**Ref. 90927.42 Top Coat Fixateur 2 x 10 ml**

**Ref. 90927.43 Incolore 2 x 10 ml**

**Ref. 90927.44 Natural 2 x 10 ml**

## THINNER

Fluidifies thickened nail polish.

A few drops will restore thickened nail polish to its correct consistency and make it easier to apply in thin coats for a quick dry and perfect hold. With handy drop dispenser.

When choosing shade with your client, check its consistency: if it is too thick, add a few drops of THINNER, roll bottle and leave to stand for minimum 20 minutes.

**Ref. 90916.50 15 ml**

## NAIL POLISH THE SHADES

The formula of the nail polishes is mainly composed of a blending of different resins, plasticizers, solvents and coloured pigments wisely chosen to allow an easy application and a perfect adhesion. Nail may breathe, even though it is covered with several coats. MAVALA nail polish does not contain any toluene, phthalates, camphor, xylene, added rosin, nor formaldehyde.

The MAVALA professional nail polish bottle has been developed to help the manicure process: its long and angular shape facilitates easy and practical hold in the palm of the hand, when applying nail polish. This unique shape also allows the bottle to be rolled laterally between the palms of the hands, in order to restore the appropriate consistency to nail polish, thanks to two mixing balls, that break the thixotropy inherent in this product. Finally the brush, shaped in half-moon, allows easy and perfect application of the nail polish.

**Ref. 90927... 1 x 10 ml**

# MAVALA SWITZERLAND FINAL TOUCH

## MAVADRY SPRAY

Nail polish dryer.

Time saver. Ideal finish for manicure, especially when already five coats have been applied on nail plate.

After the final coat of manicure (Fixator; for ex. COLORFIX), wait a minute, then spray MAVADRY SPRAY directly on nail polish, holding the container approximately 30 cm from the nails. Protect client's jewellery, as this may leave a fine veil (which can be easily washed off). Follow instructions carefully.

Ref. 90916.60 150 ml

## OIL SEAL DRYER

Instant touch-dry manicure, while taking care of cuticles.

Ideal for dry skin and cuticles, it is enriched in cotton oil, smoothing and regenerating, and in antioxidant vitamin E. It forms a light gliding and non-sticky film that fixes colour and instantly protects nail polish from fingerprints and accelerates drying time.

After the application of a Fixator; wait for a few moments. Apply quick brush strokes, slightly going onto the nail contour. Hold the brush flat without pressing. Leave it to act a few seconds.

Ref. 90917.50PROF 2 x 10 ml

## COLORFIX

Colourless and ultra shiny fixator for nail polish.

With acryl.

Forms a brilliant, hard yet flexible film on nail polish to protect it against cracking and chipping. Prolongs the hold of the manicure.

To be applied on nails, in a thin coat, without pressing and by slightly going under the free edge, if possible.

Ref. 90907.50 2 x 10 ml

## MAVADRY

Nail polish dryer.

Colourless fixator that enhances shine of nail polish.

Clients are busy women who are in a hurry. MAVADRY is the ideal solution for accelerating drying time and help avoid chipping nail polish. It enhances colour and gives a brilliant sheen.

To be applied on nails, in a thin coat without pressing, to avoid damaging the previous application of nail polish.

Ref. 90918.50 2 x 10 ml

# NAIL POLISH REMOVERS

## CORRECTOR FOR NAIL POLISH

Corrects manicure errors.

A handy pen with an acetone-free solvent saturated felt-tip. Instantly removes nail polish mistakes from cuticles or fingertips, thanks to its bevelled tip. Also handy for Nail Art. Provided with 3 spare tips.

Ref. 90916.70 4.5 ml

## MILD NAIL POLISH REMOVER

This acetone formula quickly removes nail polish. Recommended for all types of nails, except dry, fragile and delicate nails or artificial nails. Does not dry out nails, nor skin, thanks to a correct addition of protective castor oil. Ref. 90911.50 230 ml

## EXTRA-MILD NAIL POLISH REMOVER

Acetone-free. This nail polish remover contains an ideal combination of softer solvents and esters which makes it a gentle product. It gently treats nails and acts by preserving nails and cuticles. Ref. 90912.50 230 ml

## CRYSTAL NAIL POLISH REMOVER

Acetone-free, odour-free and non flammable. This product removes nail polish while taking care of nails, without drying out skin. Thanks to its biodegradable ingredients, it is eco-friendly and helps protect environment. Ref. 90926.50 230 ml

# MANICURE ACCESSORIES

## EMERY BOARDS

Double-sided, made of supple wood.  
Specially adapted to the fragility of nails.

To shape nails, always use from side to centre. Avoid filing deep into the sides of the nail tip as this could cause breakage. Finish filing with small vertical strokes, from top to bottom and vice versa, with the tip of the board (this smoothes the tip and avoids splitting). Use the lighter coloured side. Use the rougher side for thick and hard nails (elderly, men and toenails).

Ref. 90906.51 20 pcs

## MANICURE STICKS

Made of birch wood.

Essential to help care for cuticles by wrapping cotton wool around them, or for removing nail polish smudges or for cleaning under the free edge of nails.

Ref. 90906.52 20 pcs

## MANICURE BOWL

Soaking fingers a few minutes in lukewarm water (with a MANICURE PILL) will facilitate manicure. Its ideal shape has been specially designed for ease of use and can be opened for cleaning after each manicure.

Ref. 90906.53

## MANICURE PILL

Effervescent pill that turns tap water into a smooth cleansing and lightening solution for nails. Cuticles are softened and are then easier to shape.

Ref. 90906.10 30 pcs

## HOOFSTICK

With a supple bevelled rubber tip, to eliminate any dead skin from the nail surface left after using CUTICLE REMOVER.

Dampen the rubber tip of the HOOFSTICK. Gently mould the nail contour and free any dead skin still adhering to the nail plate, using small circular motions.

Ref. 90906.55

## COTTON PADS

Double-sided make-up remover pads. Made in Switzerland, 100% extra-soft cotton, do not fuzz. One side is more absorbent and firmer for using with nail polish remover, the other side is softer and finer for removing eye and facial make-up.

Ref. 90906.60 Roll of 80 pads

## — TECHNICAL ACCESSORIES

## MAVALA MANICURE TOWEL

Made of cotton.  
50 cm x 30 cm.

Ref. 90906.42

## MANICURE BOY

Made out of fibreboard, strong and compact. With ergonomic swivel table and storage compartment to be locked.  
depth 75 cm - height 75 cm - width 43 cm.

Ref. 90906.50

## MAVALA APRON

One size, with a large waist measurement and an adjustable neck (3 positions). Handy front pocket. 100 % cotton. Machine washable at 40 °C.

Ref. 421841

## PURIFYING LOTION FOR HANDS & FEET

Hygienic gel for manicure and pedicure preparation. Contains over 60 % of alcohol.

Ref. 90972.50 225 ml

MAVALA  
SWITZERLAND

# HAND CARE

## CLEANSING MASK FOR HANDS

### Peeling and moisturizing care

Helps stimulate renewal of skin cells, remove dead skin and impurities, provide an amazing softness and restore an ideal moisture balance. Brings immediate benefit to dull and dry hands.

MAVALA Plastic Gloves improve the efficiency of the active ingredients and do not immobilize the client.

Ref. 90923.50 120 ml

## MASSAGE HAND CREAM (tube version)

Besides its texture, particularly adapted to massage, this cream moisturizes and protects hands. It makes hands soft and smooth. Contains marine collagen.

Ref. 90920.50 120 ml

## MASSAGE HAND CREAM (pump bottle version)

Same properties as tube version, but slightly more fluid.

Ref. 90920.51 225 ml

## PROFESSIONAL MANICURE TRAY

This tray contains all the products and accessories essential for a manicure, as well as a selection of standard and fashion nail polishes.

Complete and compact for optimum use of space enabling you to keep your work area neat and tidy. Width 31 cm - depth 21.5 cm

Ref. 98190.50

# FOOT CARE

## SMOOTHING SCRUB CREAM

Eliminates callouses and smoothes.

Microparticles of natural seaweed contained in this cream allow gentle elimination of callouses, leaving skin soft and supple.

**Ref. 90777.50 120 ml**

## CONDITIONING MOISTURIZER

Softens, moisturizes and protects feet.

Excellent massage cream for feet. Its collagen and allantoin formula softens rough skin and prevents chapping. Leaves skin supple and soft. Daily care.

**Ref. 90778.50 120 ml**

## TALCUM POWDER

Absorbs moisture.

This talcum powder for feet absorbs perspiration and contains a "Deo-Active" agent that prevents the development of unpleasant odours. Freshness and well-being all day long. Slightly perfumed.

Sprinkle feet and inside shoes.

**Ref. 90771.50 125 g**

## REFRESHING GEL

Cools and relaxes.

Restores vitality and energy to tired feet. A light massage with this gel soothes hot, swollen feet, for an immediate benefit.

**Ref. 90772.50 120 ml**

## CONCENTRATED FOOT BATH

Deodorizing, tonifying, pedicure preparation.

Its emollient action provides an excellent preparation for pedicure. Smooths, softens callouses, enabling easy removal. Rich in essential oils, this product must not be used by women who are pregnant or breastfeeding.

**Ref. 90775.50 120 ml**

## DEODORIZING GEL

Long-lasting freshness, prevents odour.

Pleasantly scented. Contains a "Deo-Active" agent that prevents the development of unpleasant odours. Penetrates rapidly. Efficient long-lasting action.

**Ref. 90770.50 120 ml**

## REVITALIZING EMULSION FOR LEGS

Refreshes and relieves heavy, demanding legs.

This revitalizing emulsion refreshes and relieves hot, heavy, tired legs. Immediate feeling of freshness and lightness.

Apply with a light massage from ankle to knee. Also recommended after a long period of standing or after sport, for a better relaxation of legs.

**Ref. 90780.50 120 ml**

## PEDI-PADS

Ease pedicure.

Made out of supple foam, they separate toes and allow application of nail polish without touching the skin.

Only remove when nail polish is dry.

**Ref. 90906.40 1 pair**
